Group Structure

Compliance, Due Diligence and Audit

In accordance with the Timber Trade Federations Responsible Purchasing Policy (RPP) we have taken steps to ensure that all timber and timber products supplied are in accordance with EU Timber Regulations. PEFC and FSC standard certification schemes support international conventions to eliminate all forms of forced or compulsory labour, the abolition of child labour and the elimination of discrimination in respect of employment and occupation. We audit our product supply chain to ensure they meet the requirements for the chain of custody management systems on an annual basis.

Risk Assessment

We have reviewed the country of source for all suppliers from our 2022 statement and identified any new suppliers, new products or new supply routes. The number of suppliers has increased by 30, year on year as a result of the inclusion of Donaldson Timber Systems.

We also updated all suppliers against the current Global Slavery Index (2018) and the current Corruption Perceptions Index (2022), which identifies the level of risk in each business. The risk level is set out as follows:

Group Company	Medium/High Risk	Low Risk	Total
James Donaldson Group Limited	6	2	8
James Donaldson Timber Limited	19	61	80
Donaldson Timber Engineering Ltd	1	21	22
